

10 Ton Portable Air Conditioning & Heat Package

General Description

YORK International portable air-conditioner Brand package is specifically engineered for commercial and industrial applications. Packaged by YORK International, American Portable Air customizes these quality York units for portable cooling trailering applications. Controls and ease of operation offer easy added flexibility. This package is mounted within a compact footprint. Power and duct connections secured in seconds to ensure rapid setup/teardown and minimized costs.

Technical Data 10T32

Ambient Operating Range	45°-125° F
Refrigerant Circuits	2
Supply Air Flow Range	3,000-6,000 CFM
Design Supply Air Flow	4,000 CFM
Refrigerant	410 A

Unit Dimensions

	Skid/Frame	Skid/Frame/Trailer
Length	88"	120" (w/ trailer tongue)
Width	68"	68"
Height	38"	53"
Shipping Weight	1,050 lbs.	1,225 lbs.
Connections: 2-12" supply & 2-12" return		

Electrical Data

Single Point Power Supply	208/240V, 3Ph, 60amp
Connections (4)	Series 16 Cam Type 4/0

Air Conditioner & Heat Features

Constant Volume

Breaker Disconnect

Simplicity Controls

Two independent 5Ton scroll refrigerant systems.

Each circuit includes expansion valve,
liquid line filter drier, high pressure switch,
suction freeze stat and low pressure/loss charge switch.

Warranty 3 years compressor 1 year all parts.
